

Rigging for Cruising & Racing

March 5, 2017

A seminar hosted by [SCCYC](#)

Event Chairperson: Charles Smith

Presented by Aleks Tamulis

Wondering what you need to do to get your rig tuned properly?

Aleks has been a professional rigger in MDR for the past 8 years. He's worked on dinghies to an 80 foot gaff rigged cutter and has substantial offshore delivery experience as well. He will lead us through the practical aspects of getting your boat rigged properly by yourself and when to call in the professionals.

Following the seminar, for those who care to, we will assemble at the launch ramp in MDR. Aleks will help you evaluate your setup. Then we will practice launching and retrieving from the ramp.

The seminar will run from 1 pm to 2 pm – there is no charge.

Free parking is available at Dock 52 on Fiji Way, a short walk from the SCCYC clubhouse located at 13723 Fiji Way next to the Lighthouse.
