While the Equinox will technically be March 20th, I figured this was close enough. Come celebrate the turning of the season, the first day of spring! Traditionally spring is a time of rebirth and renewal, so why not get yourself back on the water.

This cruise we're going to search for Whales. Wind permitting, we'll sail down to 2ES then on to 10PV, loop down around Pt. Vicente and from there make our way back up to Mdr.

PROPOSED ITINERARY

11:30	Cast off from your slip
12:00	Re-group outside the breakwater
